

NSLS-II Environment, Safety, and Health (ESH) Briefing for Bldg. 830M Occupants

For NSLS-II Staff
LT-ESH-LTSTAFF-830M

This briefing is required for all employees and guests who are occupants of Building 830M. Additional required training is to be noted on the NSLS-II New Employee/Guest Orientation Form. Send the signed form to NSLS Training Coordinator at 725D.

Building and Site Emergencies

Building Evacuation

1. Alarm bells will ring.
2. Evacuate the building via the nearest, safe exit (north, south, east).
3. Go to the Outdoor Assembly Area – grassy across Railroad Ave. in front of Building 817.
4. Follow instructions of Incident Commander.

Site Alert

1. Alarms are tested Mondays at 12:00 noon.
2. BNL siren will sound and hold a steady tone.
3. Go to your Indoor Assembly Area – Main lobby of Bldg. 830, near main entrance
4. OR - You may be asked to go to the Shelter-in-Place –the hallway outside Conference Rooms 32 and 37 in the modular building.
5. Wait for further information from the Local Emergency Coordinator or Laura Miller.

Site Evacuation

1. BNL siren will sound and hold a warbling (up and down) tone.
2. Go to your car and evacuate the site – Drive Carefully!
3. Apartment/dormitory people, go to Berkner Hall.
4. Carpool people meet your carpool outside of the lab property.

Emergency Equipment in Your Area – Note the Locations of:

1. Fire alarm pull boxes, nearest exits, fire extinguishers, telephones

Medical First Aid and Emergencies

First Aid

1. If you are not feeling well or have a minor injury, notify your supervisor and go to the BNL Occupational Medicine Clinic (OMC) in Bldg. 490*.
2. Nurses and physicians are on duty M-F from 8:00-17:00 hrs.
3. All other hours and holidays, go to the Fire House in Bldg. 599*.

*See the map in the back of the BNL telephone book for locations.

Medical Emergency

1. Call x911 from any BNL phone or call 344-2222 from any cell or pay phone.
2. Provide the following information:
 - State “This is a medical emergency”.
 - Your name.
 - Your building and room number, and the building entrance location
 - Explain the medical emergency.
3. Get someone to go outside, meet the ambulance and bring personnel to you.
4. Ask Laura Miller to contact NSLS ESH personnel.

1. Speed Limit on site is 30 mph (except where otherwise posted) and is radar enforced.
2. Pedestrians have right-of-way in marked areas. Cross in marked zones. Drivers should stop.
3. Vehicles are subject to police inspection.
4. Bicycles must observe all Laboratory traffic rules.
5. Park in designated parking areas. Yellow-painted curbs indicate “no parking” areas.
6. On-site deer, geese and turkey populations present driving hazards.

1. Wear your BNL ID badge on your outer clothing at all times while on site. When your BNL work assignment is over, you must return the badge to your BNL Contact or the Security Badging Office.
2. No smoking in any building on site.
3. Professional conduct and ethical behavior are expected and required at all times.
4. Prohibited activities include: alcohol consumption, illegal drug use, sexual harassment or any other discrimination.
5. Do not use a computer or any other BNL equipment unless you are authorized and trained for its use and handling. Inappropriate use of equipment may constitute fraud, waste, or abuse of government property.
6. You may access the BNL site for the performance of your BNL work assignment or public events only. Accessing the site for any other purpose is prohibited.

You may only tour the NSLS and DUV-FEL Controlled Areas as a Visitor under Escort unless you undergo additional training. No work is allowed under Visitor/Escort. Please see Mary Anne Corwin (x2295) for any training needs.

1. Safety begins with *you*. Always watch out for your co-worker, too.
2. If you have *any* safety concerns, talk first to your supervisor and/or NSLS safety personnel.
